PROFILE

I'm an aspiring Data Scientist with a strong academic background in Computer Science eager to apply theoretical knowledge to real-world problems. Proficient in Python, R, and SQL, with hands-on experience in data analysis, machine learning, and data visualization through self-made projects. I leverage tools like Pandas, NumPy, Scikit-learn, and Tableau to extract insights and build predictive models. A quick learner with a passion for continuous improvement, I am committed to developing innovative solutions to complex challenges. I'm seeking an opportunity to contribute to data-driven decision-making and grow within a dynamic team.

EDUCATION

2018 - 2020

GOVT. TOLARAM COLLEGE

- Science

2021 - PRESENT

NATIONAL UNIVERCITY,

- BSc Hons in Computer Science and Engineering

SKILLS

- Programming Languages:** Python, R, SQL, Scala, MATLAB.
- Data Manipulation:** Pandas, NumPy, Dplyr.
- Data Visualization:** Matplotlib, Seaborn, Plotly, Tableau, Power BI.
- Databases:** MySQL, PostgreSQL, MongoDB, NoSQL.
- Machine Learning:** Scikit-learn, Keras, PyTorch, XGBoost, LightGBM, Random Forest, Gradient Boosting, SVM, k-NN, Naive Bayes, GBM.
- Statistical Analysis:** Hypothesis Testing, Regression Analysis, Classification, ANOVA, Time Series Analysis, A/B Testing.
- Deep Learning:** MLP, CNN, RNN, LSTM,
- NLP:** NLTK, SpaCy.
- Model Deployment:** Flask, Docker, Kubernetes, MLflow.
- Version Control:** Git, GitHub, GitLab.
- Software Development:** CI/CD Pipelines.
- Data Analysis and Interpretation, Exploratory Data Analysis (EDA).
- Feature Engineering, Clustering, Classification and Regression, Predictive Modeling.
- Problem-Solving.
- Critical Thinking.
- Communication Skills (both written and verbal).
- Collaboration and Teamwork.
- Adaptability and Flexibility.
